Career Objective

Detail-oriented and motivated B.E. Computer Science graduate (2025) with hands-on experience in data analysis, dashboarding, and project documentation. Passionate about transforming data into actionable insights to support strategic decision-making. Seeking an entry-level **Data Analyst** role in a growth-oriented organization where I can leverage my technical and analytical skills to drive business success.

Technical Skills

- **Programming & Tools:** Python (Pandas, NumPy), SQL, Power BI, MS Excel, Git, Anaconda
 - **Data Analytics:** Data Cleaning, Data Visualization, KPI Reporting, Data Modeling, DAX
 - **Databases:** MySQL, MongoDB
 - **Other Tools:** Visual Studio Code, JIRA (basic), Star UML
 - **Soft Skills:** Analytical Thinking, Communication, Team Collaboration, Problem Solving
-

Education

- **B.E. in Computer Science and Engineering**
Suguna College of Engineering, Coimbatore
2021 – 2025 • 90%
 - **HSC (+2)**
St. Thomas Higher Secondary School, Thrissur • 2021 • 90%
 - **SSLC (10th)**
Amrita Vidyalayam School, Thrissur • 2019 • 79%
-

Internship Experience

Software Engineer Intern

Workcohol, Chennai • Jan 2025 – April 2025

- Developed scalable front-end components using ReactJS and integrated APIs using Node.js.
- Participated in Agile sprints and collaborated with team members for feature implementation.

- Gained experience with MongoDB, cloud deployment, and version control using Git.
-

Projects

- **Data Analytics Dashboard** – Python, Pandas, Power BI
Analyzed user behavior data to build an interactive dashboard showing usage patterns, KPIs, and actionable business insights.
 - **MigrantCare** – Digital Registration System
Tech Stack: ReactJS, Node.js, MongoDB
Built modules for secure document upload and dynamic ID generation; designed backend API for user registration.
 - **Payroll Management Module** – MERN Stack
Automated payroll processing including salary calculation, tax deductions, and benefits allocation.
 - **Fitness & Wellness Tracker** – HTML, CSS, JS, Bootstrap
Created an interactive UI to track daily health goals and alert users with progress visuals.
-

Certifications

- **Business Analysis & Process Management** – Coursera
 - **Oracle Cloud Infrastructure 2023 Foundations Associate** – Oracle
 - **Cybersecurity Essentials & Networking Essentials** – Cisco
 - **Java Programming Fundamentals** – Scaler / Great Learning
-

Workshops

Business & Data Analysis using Power BI – TechTips24

Completed a hands-on workshop on Power BI with real-time data transformation, stakeholder dashboards, and storytelling using DAX.
